Toolkit Data: Jul-13

The image shows a web browser window with a light blue background. At the top, there is a browser address bar containing the text 'Basingstoke 35dph, 40% AH, 25%SR/ 75%AR'. Below this, a grey sidebar contains a form titled '1 - SITE IDENTIFICATION'. The form has several input fields: 'Site Details' (containing the same text as the address bar), 'Site Address' (containing 'Basingstoke and Tadley MVA'), 'Site Reference' (containing '13th Jan 2016'), 'Application Number', and 'Scheme Description'. Below the form is a green bar and a checkbox with the text 'I have read, and accepted, the terms and conditions set out in the license agreement'. Underneath that is the text 'Toolkit Data: Jul-13' and a logo for 'Three Dragons' which features a green silhouette of hills and the text 'Three Dragons' in white on a green background. At the bottom of the browser window is a Windows taskbar with various application icons and a system tray showing the time as 10:05.

4 - CHARACTERISTICS OF DEVELOPMENT

ALWAYS DEPRESS THE CLEAR TABLE BUTTON FIRST. You then have two options for entering information about the scheme: EITHER enter information for up to 20 dwelling types—each row must be either fully complete or left blank (enter 1 if information not relevant e.g. size of affordable unit but is a market unit)—OR select the default mix by depressing the "Use Default Mix" button.

Build costs in the toolkit are driven by the square meterage entered on this page. For houses the unit size will normally be the same for both gross and nett internal area. For flats you will need to increase unit sizes to take into account communal areas such as hallways, landings and stairs. Each scheme is different, and site-specific information should be sought. Where no information on sq meterage of communal areas is available the following factors can be applied: +15% for 1-5 storeys, +20% for 6-15 storeys, and +25% for 16 or more storeys.

Clear Table
Use Default Mix

Ref.	Description of Dwelling	No. of Bed-Rooms	Dwelling Type	No of Units	Affordable floor area sq m	Market floor area sq m	Parking (flats only)	No. of Storeys (1-99)	Default Unit Type	No. of Units

6 - TENURE MIX

If you are using a default mix then you can distribute units across the tenures by percentage; enter the percentage of units to assign to each tenure in the top row. The percentages are applied equally across all unit types.
 If you are not using a default mix then you may either enter units by percentage or by the exact number of units of each type for each tenure; in the table enter the exact number of units of each type for each tenure in the table.
 Whichever method is selected, ensure that relevant information is entered in the boxes at the bottom of the table.

10 A - COMMUNITY INFRASTRUCTURE LEVY

Does CIL apply?

Chargeable development area will be affected by proportion of affordable housing, proportion of communal areas (where there is also affordable housing), and existing floor area (of any use) which is replaced by new development. See the guidance notes for more information.

CIL is applied to market housing and to communal areas in proportion to the overall split of housing between tenures. See Section 49c of The Community Infrastructure Levy (Amendment) Regulations 2014. If a scheme is flatted and has common areas you should check that the unit sizes shown on P4 Characteristics of Development have been increased to allow for common areas.

Total sq m to which CIL applies	2,294.9
CIL rate per sq m	
Total residential CIL payable	£0
Average CIL per market dwelling	£0
Average CIL per dwelling	£0
Average CIL per ha (net)	£0
