BASP Board Meeting

8 March 2018

1. Welcome and introductions

2. Horizon 2050 update – Simon Christian

Consultations are currently ongoing with a variety of stakeholder groups with larger scale public consultations planned for summer 2018.

3. Higher Education Study – Daniel Garnier

EM3 commissioned a study to look at the current situation in Basingstoke and to gather views from business and education re potential higher education provision in the borough. Initial findings are summarised in the presentation circulated with these minutes and further consultation is planned to take place during 2018.

4. Gender Pay Gap – Daniel Garnier

Companies (with 250+ employees) are now required to publish annually statistical information about the gender pay gap in their organisation. The current position for Basingstoke and Deane is:

- Overall weekly full time wages in Basingstoke and Deane are higher than UK, England and South East averages
- Male full time earnings are among the highest for Hampshire districts
- Female full time earnings are higher than national average, similar to Hampshire and South East averages but lower than East Hampshire, Hart and Winchester
- The UK gender pay gap for full time workers is 9.1% (all employees is 18.4%)
- The Basingstoke and Deane gender pay gap for full time workers is 20.6% (all employees is 27.3%)
- Basingstoke and Deane is in the lower quartile for all UK local authorities for gender pay gap measure

5. Suggestions for BASP 2018 joint partnership event

The BASP Children, Young People and Families partnership have requested that the 2018 joint partnership event be focused on their developing new strategy.

BASP board members agreed this was a cross cutting theme and that the strategy would benefit from input, consultation and buy in from BASP partners from across the Priority Action Groups. The request was approved but the
